Matter waves

Optical control of the internal and external angular momentum of a Bose-Einstein condensate *(4 pages)* ..... 041601(R)
K. C. Wright, L. S. Leslie, and N. P. Bigelow

Collective excitations of trapped imbalanced fermion gases *(4 pages)* ..... 041602(R)
Achilleas Lazarides and Bert Van Schaeybroeck

Determination of the equation of state of a polarized Fermi gas at unitarity *(4 pages)* ..... 041603(R)
Yong-il Shin

Correlations in an expanding gas of hard-core bosons *(4 pages)* ..... 041604(R)
D. M. Gangardt and M. Pustilnik

Phase coherence and fragmentation in weakly interacting bosonic gases *(4 pages)* ..... 041605(R)
G. S. Paraoanu

Engineering many-body quantum dynamics by disorder *(4 pages)* ..... 041606(R)
Pierfrancesco Buonsante and Sandro Wimberger

Trapped *p*-wave superfluids: A local-density approach *(4 pages)* ..... 041607(R)
M. Iskin and C. J. Williams

Quantum Monte Carlo study of the visibility of one-dimensional Bose-Fermi mixtures *(4 pages)* ..... 041608(R)
C. N. Varney, V. G. Rousseau, and R. T. Scalettar

Quantum optics, physics of lasers, nonlinear optics, classical optics

Ghost-imaging experiment by measuring reflected photons *(4 pages)* ..... 041801(R)
Ron Meyers, Keith S. Deacon, and Yanhua Shih

Image storage in hot vapors *(4 pages)* ..... 041802(R)
L. Zhao, T. Wang, Y. Xiao, and S. F. Yelin

ARTICLES

Fundamental concepts

Detecting photon-photon scattering in vacuum at exawatt lasers *(7 pages)* 042101
Daniele Tommasini, Albert Ferrando, Humberto Michinel, and Marcos Seco

Delbrück scattering in combined Coulomb and laser fields *(10 pages)* 042102
A. Di Piazza and A. I. Milstein

Variational Jastrow coupled-cluster theory of quantum many-body systems *(8 pages)* 042103
Y. Xian

Relativistic *n*-fermion wave equations in quantum electrodynamics *(13 pages)* 042104
Mohsen Emami-Razavi

Efficiency of higher-dimensional Hilbert spaces for the violation of Bell inequalities *(9 pages)* 042105
Károly F. Pál and Tamás Vértesi

Generalized Clauser-Horne-Shimony-Holt inequalities maximally violated by higher-dimensional systems *(8 pages)* 042106
T. Vértesi and K. F. Pál

Casimir force calculations near the insulator-conductor transition in gold thin films *(6 pages)* 042107
R. Esquivel-Sirvent
