THIRD SERIES, VOLUME 79, NUMBER 3 PARTS A AND B — ***CONTENTS*** — **MARCH 2009**

The Table of Contents is a total listing of Parts A and B.
Part A consists of pages 030301(R)-032716, and Part B pages 032901-039905(E).

PART A

RAPID COMMUNICATIONS

Quantum information

Hyperentanglement of two photons in three degrees of freedom *(4 pages)* . . . . . 030301(R)
Giuseppe Vallone, Raino Ceccarelli, Francesco De Martini, and Paolo Mataloni

Complete state reconstruction of a two-mode Gaussian state via local operations and classical communication *(4 pages)* . . . . . 030302(R)
Gustavo Rigolin and Marcos C. de Oliveira

All-optical-fiber polarization-based quantum logic gate *(4 pages)* . . . . . 030303(R)
Alex S. Clark, Jérémie Fulconis, John G. Rarity, William J. Wadsworth, and Jeremy L. O'Brien

Atomic and molecular structure and dynamics

Dimer-dimer collisions at finite energies in two-component Fermi gases *(4 pages)* . . . . . 030501(R)
J. P. D'Incao, Seth T. Rittenhouse, N. P. Mehta, and Chris H. Greene

Atomic and molecular collisions and interactions

Sequential formation of the CH_3+H+H channel in the dissociative recombination of CH_5^+ *(4 pages)* . . . . . 030701(R)
Vitali Zhaunerchyk, Magdalena Kamińska, Erik Vigren, Mathias Hamberg, Wolf D. Geppert, Mats Larsson, Richard D. Thomas, and Jacek Semaniak

Photon, electron, atom, and molecule interactions with solids and surfaces

Ultrafast studies of electronic processes at surfaces using the laser-assisted photoelectric effect with long-wavelength dressing light *(4 pages)* . . . . . 030901(R)
L. Miaja-Avila, J. Yin, S. Backus, G. Saathoff, M. Aeschlimann, M. M. Murnane, and H. C. Kapteyn
