
Color maps of an athermal assembly of repulsive soft particles quenched from infinite temperature. Vertical columns: successive times; top row: particle speeds; middle: thresholded nonaffine deformation rate; bottom: thresholded rate of change of particle energy. The assembly displays "hot spots." Selected as an Editors' Suggestion. [R.N. Chacko, P. Sollich, and S. M. Fielding, Phys. Rev. Lett. **123**, 108001 (2019)]
