

Cumulative Author Index

All authors of papers published so far in the current volume are listed alphabetically with the issue and article numbers following the dash. The letters (R) or (E) following the article number indicate that a paper is a Rapid Communication or an Erratum. A more complete index, with the full title listed with each first author's name and subsequent authors cross-referenced, is published in the last issue of the volume. A cumulative author and subject index covering **Physical Review A through E, Physical Review Letters, and Reviews of Modern Physics** is published annually under separate cover.
