## RAPID COMMUNICATIONS

### Fundamental concepts

- Collisional decoherence during writing and reading quantum states (*4 pages*) ..... 040101(R)  
Stephanie Manz, Thomas Fernholz, Jörg Schmiedmayer, and Jian-Wei Pan

### Quantum information

- Fast quantum state control of a single trapped neutral atom (*4 pages*) ..... 040301(R)  
M. P. A. Jones, J. Beugnon, A. Gaëtan, J. Zhang, G. Messin, A. Browaeys, and P. Grangier
- Entanglement of collectively interacting harmonic chains: An effective two-dimensional system (*4 pages*) .... 040302(R)  
R. G. Unanyan, M. Fleischhauer, and D. Bruß
- Decoherence-free subspace and entanglement by interaction with a common squeezed bath (*4 pages*) ..... 040303(R)  
D. Mundarain and M. Orszag

### Atomic and molecular structure and dynamics

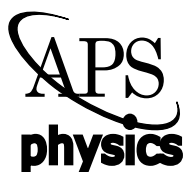

- Muonic hydrogen cascade time and lifetime of the short-lived  $2S$  state (*4 pages*) ..... 040501(R)  
L. Ludhova, F. D. Amaro, A. Antognini, F. Biraben, J. M. R. Cardoso, C. A. N. Conde, A. Dax,  
S. Dhawan, L. M. P. Fernandes, T. W. Hänsch, V. W. Hughes, P. Indelicato, L. Julien, P. E. Knowles,  
F. Kottmann, Y.-W. Liu, J. A. M. Lopes, C. M. B. Monteiro, F. Mulhauser, F. Nez, R. Pohl,  
P. Rabinowitz, J. M. F. dos Santos, L. A. Schaller, C. Schwob, D. Taqqu, and J. F. C. A. Veloso
- Measurement of excited-state transitions in cold calcium atoms by direct femtosecond frequency-comb spectroscopy (*4 pages*) ..... 040502(R)  
J. E. Stalnaker, Y. Le Coq, T. M. Fortier, S. A. Diddams, C. W. Oates, and L. Hollberg
- Alteration of molecular symmetry during dissociative ionization (*4 pages*) ..... 040503(R)  
Vandana Sharma and Bhas Bapat

### Clusters (including fullerenes)

- Effect of giant plasmon excitations in single and double ionization of  $C_{60}$  in fast heavy-ion collisions (*4 pages*) ..... 041201(R)  
Umesh Kadhane, A. Kelkar, D. Misra, Ajay Kumar, and Lokesh C. Tribedi

### Atomic and molecular processes in external fields

- Effects of molecular symmetry on enhanced ionization by intense laser pulses (*4 pages*) ..... 041401(R)  
G. Lagmago Kamta and A. D. Bandrauk

### BRIEF REPORTS

#### Fundamental concepts

|                                                             |        |
|-------------------------------------------------------------|--------|
| Twin paradox on the photon sphere (2 pages) .....           | 044101 |
| Marek A. Abramowicz, Stanisław Bajtlik, and Włodek Kluźniak |        |

#### Quantum information

|                                                                                                         |        |
|---------------------------------------------------------------------------------------------------------|--------|
| Robust preparation of Greenberger-Horne-Zeilinger and $W$ states of three distant atoms (4 pages) ..... | 044301 |
| Chang-shui Yu, X. X. Yi, He-shan Song, and D. Mei                                                       |        |
| Quantum phase gate of photonic qubits in a cavity QED system (4 pages) .....                            | 044302 |
| Jing Shu, Xu-Bo Zou, Yun-Feng Xiao, and Guang-Can Guo                                                   |        |
| Optimal real state cloning in $d$ dimensions (4 pages) .....                                            | 044303 |
| Wen-Hai Zhang, Tao Wu, Liu Ye, and Jie-Lin Dai                                                          |        |
| Experimental realization of direct characterization of quantum dynamics (4 pages) .....                 | 044304 |
| Zhi-Wei Wang, Yong-Sheng Zhang, Yun-Feng Huang, Xi-Feng Ren, and Guang-Can Guo                          |        |
| Improving the teleportation of entangled coherent states (4 pages) .....                                | 044305 |
| H. Prakash, N. Chandra, R. Prakash, and Shivani                                                         |        |

#### Atomic and molecular structure and dynamics

|                                                                       |        |
|-----------------------------------------------------------------------|--------|
| Two-photon microwave spectroscopy of Ba $6snl$ states (4 pages) ..... | 044501 |
| E. S. Shuman, J. Nunkaew, and T. F. Gallagher                         |        |

#### Atomic and molecular collisions and interactions

|                                                                                                                               |        |
|-------------------------------------------------------------------------------------------------------------------------------|--------|
| Charge-transfer cross sections of $H^+$ ions in collisions with Ne atoms in the energy range below 4.0 keV<br>(3 pages) ..... | 044701 |
| Toshio Kusakabe, Hiroyuki Tawara, Mineo Kimura, Jiang-ping Gu, and Robert J. Buenker                                          |        |

#### Atomic and molecular processes in external fields

|                                                                                                     |        |
|-----------------------------------------------------------------------------------------------------|--------|
| Addendum to “Low-frequency–high-intensity limit of the Keldysh-Faisal-Reiss theory” (4 pages) ..... | 045401 |
| Jarosław H. Bauer                                                                                   |        |

#### Matter waves

|                                                                                                              |        |
|--------------------------------------------------------------------------------------------------------------|--------|
| Effect of decoherence on the dynamics of Bose-Einstein condensates in a double-well potential (4 pages) .... | 045601 |
| W. Wang, L. B. Fu, and X. X. Yi                                                                              |        |
| Parametric equation of state of a weakly interacting Bose system (4 pages) .....                             | 045602 |
| Mingzhe Li, Haixiang Fu, Zhipeng Zhang, and Jincan Chen                                                      |        |

#### Quantum optics, physics of lasers, nonlinear optics, classical optics

|                                                                                                          |        |
|----------------------------------------------------------------------------------------------------------|--------|
| Nonclassicality of quantum excitation of classical coherent field in photon-loss channel (4 pages) ..... | 045801 |
| Shang-Bin Li, Xu-Bo Zou, and Guang-Can Guo                                                               |        |
