Erratum: Low-energy elastic scattering of electrons from neon atoms

H. P. Saha

There is a misprint 0.0700 in the value of the phase shift $\delta_2$ of this work at energy $k = 0.3$ a.u. in Table I of p. 5050. The corrected value should read 0.0070. The labeling in the cross-section axis and the figure captions of the Figs. 2 and 3 are interchanged by mistake. Figures 2 and 3 with corrected labeling and figure captions are given below.

---

FIG. 2. Total-elastic cross sections (in units of $a_0^2$) for the low-energy scattering of electrons from neon atoms. ---, MCSCF (present); ---, Dasgupta and Bhatia (Ref. 3); ---, McEachran and Stauffer (Ref. 4); X, Register and Trajmar (Ref. 16); O, O’Malley and Crompton (Ref. 20).
FIG. 3. Momentum-transfer cross sections (in units of \( a_0^2 \)) for the low-energy scattering of electrons from neon atoms. 
- - - - , MCSCF (present); - - - - , Dasgupta and Bhatia (Ref. 3); - - - - , McEachran and Stauffer (Ref. 4); X, Register and Trajmar (Ref. 16); O, O’Malley and Crompton (Ref. 20).
