In Appendix A of our paper an error was found in Eqs. (A7) and (A8). The correct form of these equations is given by

\[ A_{zz} \equiv \frac{1}{28} \sum [3m^2_F - F(F + 1)] p_{m_F} \]
\[ = \frac{1}{28} \sum (3m^2_F - 20) p_{m_F}. \]

(A7)

(A8)

Then Eqs. (A9) and (A10) become

\[ \kappa_{pol} = K \left( \frac{1}{27} - \frac{1}{18} \mathcal{P}_z + \frac{1}{34} A_{zz} \right) \]
\[ = \kappa_{unpol} \left( 1 - \frac{3}{2} \mathcal{P}_z + \frac{1}{2} A_{zz} \right). \]

(A9)

(A10)

In Sec. II, Eq. (5) is thus given by

\[ \kappa_{0,pol}^0 = \kappa_{0,unpol}^0 \left( 1 - \frac{3}{2} \mathcal{P}_z + \frac{1}{2} A_{zz} \right). \]

(5)

These changes do not affect the analysis, results, and conclusions of our paper.
