## CONDENSED MATTER

---

THIRD SERIES, VOLUME 53, NUMBER 18

CONTENTS

1 MAY 1996-II

---

### RAPID COMMUNICATIONS

#### Inhomogeneous, disordered, and partially ordered systems

- Dielectric polarization noise through the glass transition ..... R11 913  
N. E. Israeloff
- Lateral transport in disordered layered media ..... R11 917  
Zhao-Qing Zhang and Kin-Chit O
- Defect formation in SiO<sub>2</sub>:GeO<sub>2</sub> glasses studied by irradiation with excimer laser light ..... R11 921  
Hideo Hosono, Hiroshi Kawazoe, and Junji Nishii
- Photoinduced generation and reorientation of linear dichroism in AsSe glassy films ..... R11 924  
V. Lyubin and M. Klebanov

#### Magnetism

- Theory of tunneling magnetoresistance in granular magnetic films ..... R11 927  
J. Inoue and S. Maekawa
- Resonant two-magnon Raman scattering in cuprate antiferromagnetic insulators ..... R11 930  
G. Blumberg, P. Abbamonte, M. V. Klein, W. C. Lee, D. M. Ginsberg, L. L. Miller, and A. Zibold
- Magnetic circular x-ray-dichroism study of Co/Pt(111) ..... R11 934  
J. Thiele, C. Boeglin, K. Hricovini, and F. Chevrier
- Extraordinary Hall effect in giant magnetoresistive Fe/Cr multilayers: The role of interface scattering ..... R11 938  
V. Korenivski, K. V. Rao, J. Colino, and Ivan K. Schuller
- Competition between the singlet-spin liquid state and the magnetic ground state in a two-chain spin- $\frac{1}{2}$  antiferromagnetic ladder compound LaCuO<sub>2.5</sub>: A <sup>63</sup>Cu NMR study ..... R11 942  
S. Matsumoto, Y. Kitaoka, K. Ishida, K. Asayama, Z. Hiroi, N. Kobayashi, and M. Takano

#### Superfluidity and superconductivity

- High-resolution photoemission study of CeRu<sub>2</sub>: The dual character of 4*f* electrons ..... R11 946  
S.-H. Yang, H. Kumigashira, T. Yokoya, A. Chainani, T. Takahashi, H. Takeya, and K. Kadowaki
- Vortex pinning by disordered columnar defects in large Josephson junctions ..... R11 949  
M. A. Itzler and M. Tinkham
- Microscopic theory of vortex pinning: Impurity terms in the Ginzburg-Landau free energy ..... R11 953  
Mark Friesen and Paul Muzikar
- Theory of the Josephson effect in *d*-wave superconductors ..... R11 957  
Yukio Tanaka and Satoshi Kashiwaya
- Manifestations of the pseudogap in the boson-fermion model for Bose-Einstein-condensation-driven superconductivity ..... R11 961  
J. Ranninger and J. M. Robin
- Interlayer tunneling in a non-Fermi-liquid metal ..... R11 964  
S. Khlebnikov
- Three-dimensional gap structure in layered high-temperature superconductors ..... R11 968  
A. Bussmann-Holder, A. R. Bishop, L. Genzel, and A. Simon
- Interplanar coupling, induced superconductivity, and van Hove singularity in high-*T<sub>c</sub>* cuprates ..... R11 972  
J. L. Tallon, G. V. M. Williams, C. Bernhard, D. M. Pooke, M. P. Staines, J. D. Johnson, and R. H. Meinhold

|------------------------------------------------------------------------------------------------------------------------------|---------|
| Pressure dependence of thermopower in $\text{YBa}_2\text{Cu}_3\text{O}_{6.96}$ and $\text{YBa}_2\text{Cu}_4\text{O}_8$ ..... | R11 976 |
| J.-S. Zhou and J. B. Goodenough                                                                                              |         |
| Confinement of spin and charge in high-temperature superconductors .....                                                     | R11 980 |
| J. P. Rodriguez and Pascal Lederer                                                                                           |         |

## ARTICLES

**Structure, structural phase transitions, mechanical properties, defects, etc.**

|                                                                                                                      |        |
|----------------------------------------------------------------------------------------------------------------------|--------|
| Monte Carlo study of a compressible Ising antiferromagnet on a triangular lattice .....                              | 11 985 |
| Lei Gu, Bulbul Chakraborty, P. L. Garrido, Mohan Phani, and J. L. Lebowitz                                           |        |
| High-resolution electron microscopy and modeling of homologous series in nonstoichiometric lead-niobium oxides ..... | 11 993 |
| Ch. Leroux, H. Tatarenko, and G. Nihoul                                                                              |        |
| Vibronic theory of the stability and hysteresis in bistable mixed-valence molecular salts .....                      | 12 006 |
| K. Boukheddaden and F. Varret                                                                                        |        |

**Inhomogeneous, disordered, and partially ordered systems**

|                                                                                                |        |
|------------------------------------------------------------------------------------------------|--------|
| Dilute and dense systems of random copolymers in the equilibrium state .....                   | 12 017 |
| Michael Schulz and Peter Reineker                                                              |        |
| Structural anisotropy in amorphous Fe-Tb thin films .....                                      | 12 024 |
| T. C. Hufnagel, S. Brennan, P. Zschack, and B. M. Clemens                                      |        |
| Structural transitions in octagonal, decagonal, and dodecagonal quasicrystals .....            | 12 031 |
| Chengzheng Hu, Renhui Wang, Di-hua Ding, and Wenge Yang                                        |        |
| Magnetic-field effects on localization in a fractal lattice .....                              | 12 035 |
| X. R. Wang                                                                                     |        |
| Local icosahedral structures in binary-alloy clusters from molecular-dynamics simulation ..... | 12 040 |
| Stefano Cozzini and Marco Ronchetti                                                            |        |

**Dynamics, dynamical systems, lattice effects, quantum solids, etc.**

|                                                                                                                                                                                                                 |        |
