

CONTENTS - *Continued*

Scaling in spin susceptibility of high- T_c cuprates: A model with nondegenerate fermions	R530
George A. Levin and Khandker F. Quader	
Phase separation and softening of the $O_{2,3}$ in-phase mode in the $\text{YBa}_2\text{Cu}_3\text{O}_x$ superconductors	R534
N. Poulakis, D. Palles, E. Liarokapis, K. Conder, E. Kaldis, and K. A. Müller	
Percolation transition of the vortex lattice and c -axis resistivity in high-temperature superconductors	R538
E. A. Jagla and C. A. Balseiro
