THIRD SERIES, VOLUME 66, NUMBER 14

CONTENTS

1 OCTOBER 2002-II

### RAPID COMMUNICATIONS

#### Dynamics, dynamical systems, lattice effects, quantum solids, etc.

- Electron-phonon interaction in transition-metal diborides  $TB_2$  ( $T = \text{Zr, Nb, Ta}$ ) studied by point-contact spectroscopy (4 pages) ..... 140301(R)  
Yu. G. Naidyuk, O. E. Kvitnitskaya, I. K. Yanson, S.-L. Drechsler, G. Behr, and S. Otani

#### Magnetism

- Magnetic circular dichroism in  $2p3p3p$  resonant photoemission from ferromagnetic Ni in perpendicular geometry across the  $L_3$  edge (4 pages) ..... 140401(R)  
M. Taguchi and G. van der Laan
- Annealing, lattice disorder, and non-Fermi-liquid behavior in  $\text{UCu}_4\text{Pd}$  (4 pages) ..... 140402(R)  
C. H. Booth, E.-W. Scheidt, U. Killer, A. Weber, and S. Kehrein
- Chiral domain walls in frustrated magnetoelastic materials (4 pages) ..... 140403(R)  
Yu. B. Gaididei, A. Saxena, T. Lookman, A. R. Bishop, and H. Büttner
- Spin filtering effect at inserted interfaces in perpendicular spin valves (4 pages) ..... 140404(R)  
Hirotaka Oshima, Keiichi Nagasaka, Yoshihiko Seyama, Yutaka Shimizu, and Atsushi Tanaka
- Canted ferromagnetism in  $\text{RuSr}_2\text{GdCu}_2\text{O}_8$  (4 pages) ..... 140405(R)  
Kohji Nakamura and A. J. Freeman
- Thermal conductivity of anisotropic and frustrated spin- $\frac{1}{2}$  chains (4 pages) ..... 140406(R)  
F. Heidrich-Meisner, A. Honecker, D. C. Cabra, and W. Brenig
- From the bulk to monatomic wires: An *ab initio* study of magnetism in Co systems with various dimensionality (4 pages) ..... 140407(R)  
Matej Komelj, Claude Ederer, James W. Davenport, and Manfred Fähnle
- Change in charge and orbital alignment upon antiferromagnetic transition in the A-site-ordered perovskite manganese oxide  $\text{RBaMn}_2\text{O}_6$  ( $R = \text{Tb and Sm}$ ) (4 pages) ..... 140408(R)  
T. Arima, D. Akahoshi, K. Oikawa, T. Kamiyama, M. Uchida, Y. Matsui, and Y. Tokura
- Statistics of the pinning field in a soft metallic ferromagnet (4 pages) ..... 140409(R)  
A. C. Mills, F. M. Hess, and M. B. Weissman

#### Superfluidity and superconductivity

- Condensation energy and high- $T_c$  superconductivity (4 pages) ..... 140501(R)  
D. van der Marel, A. J. Leggett, J. W. Loram, and J. R. Kirtley
- Surface states and their possible role in the superconductivity of  $\text{MgB}_2$  (4 pages) ..... 140502(R)  
V. D. P. Servedio, S.-L. Drechsler, and T. Mishonov
- Josephson current in S-FIF-S junctions: Nonmonotonic dependence on misorientation angle (4 pages) ..... 140503(R)  
Yu. S. Barash, I. V. Bobkova, and T. Kopp

|                                                                                                                                                                                         |           |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------|
| Quantum Monte Carlo study of the three-dimensional attractive Hubbard model (4 pages) .....                                                                                             | 140504(R) |
| Alain Sewer, Xenophon Zotos, and Hans Beck                                                                                                                                              |           |
| Hidden quantum critical point in a ferromagnetic superconductor (4 pages) .....                                                                                                         | 140505(R) |
| Debanand Sa                                                                                                                                                                             |           |
| Calculation of the phase field of a vortex pair on the surface of a multiply connected substrate (4 pages) .....                                                                        | 140506(R) |
| Toshiaki Obata and Minoru Kubota                                                                                                                                                        |           |
| Direct measurement of quasiparticle evanescent waves in a dirty superconductor (4 pages) .....                                                                                          | 140507(R) |
| J. Y. Gu, J. A. Caballero, R. D. Slater, R. Loloee, and W. P. Pratt, Jr.                                                                                                                |           |
| Quantum interference between nonmagnetic impurities in $d_{x^2-y^2}$ -wave superconductors (4 pages) .....                                                                              | 140508(R) |
| Dirk K. Morr and Nikolaos A. Stavropoulos                                                                                                                                               |           |
| Superconducting gap in the presence of bilayer splitting in underdoped $(\text{Pb,Bi})_2\text{Sr}_2\text{CaCu}_2\text{O}_{8+\delta}$ (4 pages) .....                                    | 140509(R) |
| S. V. Borisenko, A. A. Kordyuk, T. K. Kim, S. Legner, K. A. Nenkov, M. Knupfer, M. S. Golden, J. Fink, H. Berger, and R. Follath                                                        |           |
| Pair phase fluctuations and the pseudogap (4 pages) .....                                                                                                                               | 140510(R) |
| T. Eckl, D. J. Scalapino, E. Arrigoni, and W. Hanke                                                                                                                                     |           |
| Slow relaxation of low-temperature vortex phases in $\text{Bi}_2\text{Sr}_2\text{CaCu}_2\text{O}_8$ (4 pages) .....                                                                     | 140511(R) |
| F. Portier, G. Kriza, B. Sas, L. F. Kiss, I. Pethes, K. Vad, B. Keszei, and F. I. B. Williams                                                                                           |           |
| Density of states in $d$ -wave superconductors disordered by extended impurities (4 pages) .....                                                                                        | 140512(R) |
| İnanç Adagideli, Daniel E. Sheehy, and Paul M. Goldbart                                                                                                                                 |           |
| Fermi surface evolution and collapse of the Mott pseudogap in $\text{Nd}_{1-x}\text{Ce}_x\text{CuO}_{4\pm\delta}$ (4 pages) .....                                                       | 140513(R) |
| C. Kusko, R. S. Markiewicz, M. Lindroos, and A. Bansil                                                                                                                                  |           |
| $^{11}\text{B}$ and $^{27}\text{Al}$ NMR spin-lattice relaxation and Knight shift of $\text{Mg}_{1-x}\text{Al}_x\text{B}_2$ : Evidence for an anisotropic Fermi surface (4 pages) ..... | 140514(R) |
| G. Papavassiliou, M. Pissas, M. Karayanni, M. Fardis, S. Koutandos, and K. Prassides                                                                                                    |           |

## ARTICLES

**Structure, structural phase transitions, mechanical properties, defects, etc.**

|                                                                                                                                              |        |
|----------------------------------------------------------------------------------------------------------------------------------------------|--------|
| Particle-size effect on the compressibility of nanocrystalline alumina (4 pages) .....                                                       | 144101 |
| B. Chen, D. Penwell, L. R. Benedetti, R. Jeanloz, and M. B. Kruger                                                                           |        |
| Probing of ferroelectric surface and bulk domains in $\text{RMnO}_3$ ( $R=\text{Y, Ho}$ ) by second harmonic generation (5 pages) .....      | 144102 |
| M. Fiebig, D. Fröhlich, Th. Lottermoser, and M. Maat                                                                                         |        |
| Dislocation constriction and cross-slip: An <i>ab initio</i> study (5 pages) .....                                                           | 144103 |
| Gang Lu, Vasily V. Bulatov, and Nicholas Kioussis                                                                                            |        |
| Complete mapping of the anisotropic free energy of the crystal-melt interface in Al (7 pages) .....                                          | 144104 |
| James R. Morris                                                                                                                              |        |
| Vacancies selectively induced and specifically detected on the two sublattices of the intermetallic compound $\text{MoSi}_2$ (5 pages) ..... | 144105 |
| X. Y. Zhang, W. Sprengel, K. Blaurock, A. A. Rempel, K. J. Reichle, K. Reimann, H. Inui, and H.-E. Schaefer                                  |        |
| Structure and dynamics of the interface between a binary hard-sphere crystal of NaCl type and its coexisting binary fluid (8 pages) .....    | 144106 |
| Rachel Sibug-Aga and Brian B. Laird                                                                                                          |        |
| First-principles study of the stability and electronic structure of metal hydrides (10 pages) .....                                          | 144107 |
| H. Smithson, C. A. Marianetti, D. Morgan, A. Van der Ven, A. Predith, and G. Ceder                                                           |        |
| Determination of the number and size of inhomogeneities in thin films by ion beam analysis (8 pages) .....                                   | 144108 |
| J. P. Stoquert and T. Szörényi                                                                                                               |        |

|                                                                                                                                             |        |
