THIRD SERIES, VOLUME 77, NUMBER 12 *CONTENTS* **MARCH 2008-15(II)**

RAPID COMMUNICATIONS

Electronic structure: wide-band, narrow-band, and strongly correlated systems

Molecular quenching and relaxation in a plasmonic tunable system *(4 pages)* . . . . . 121101(R)
Guillaume Baffou, Christian Girard, Erik Dujardin, Gérard Colas des Francs, and Olivier J. F. Martin

Measurement of Aharonov-Bohm oscillations in mesoscopic metallic rings in the presence of a high-frequency electromagnetic field *(4 pages)* . . . . . 121102(R)
Josef-Stefan Wenzler and Pritiraj Mohanty

Semiconductors I: bulk

Magnetic impurities and itinerant carriers in doped $SrTiO_3$: Anomalous Hall resistivity *(4 pages)* . . . . . 121201(R)
D. Satoh, K. Okamoto, and T. Katsufuji

Influence of epitaxial strain on the ferromagnetic semiconductor EuO: First-principles calculations *(4 pages)* . . . . . 121202(R)
N. J. C. Ingle and I. S. Elfimov

Soft modes at the stacking faults in SiC crystals: First-principles calculations *(4 pages)* . . . . . 121203(R)
Tiju Thomas, Dhananjai Pandey, and Umesh V. Waghmare

Polarizability of molecular chains: A self-interaction correction approach *(4 pages)* . . . . . 121204(R)
C. D. Pemmaraju, S. Sanvito, and K. Burke

Semiconductors II: surfaces, interfaces, microstructures, and related topics

Dressed excitons within an incoherent electron gas: Observation of a Mollow triplet and an Autler-Townes doublet *(4 pages)* . . . . . 121301(R)
Jean Berney, Marcia T. Portella-Oberli, and Benoît Deveaud

Synchronized and desynchronized phases of coupled nonequilibrium exciton-polariton condensates *(4 pages)* . . . . . 121302(R)
Michiel Wouters

Precession of localized spins in an inhomogeneous magnetic fringe field *(4 pages)* . . . . . 121303(R)
S. Halm, P. E. Hohage, J. Nannen, G. Bacher, J. Puls, and F. Henneberger

Surface physics, nanoscale physics, low-dimensional systems

Exceptional surface stability in late transition metal alloys driven by lattice strain *(4 pages)* . . . . . 121401(R)
L. Vitos, M. Ropo, K. Kokko, M. P. J. Punkkinen, J. Kollár, and B. Johansson
