DOI: 10.1103/PhysRevB.84.099903 PACS number(s): 75.50.Lk, 72.50.+b, 75.80.+q, 99.10.Fg

This paper was published online on 31 May 2011 with incorrect captions to Figs. 4, 5, and 6. Figure 4’s caption should read as “Temperature dependence of the elastic constant $(C_{11} + C_{12})/2$ below 100 K (a) and $C_{44}$ below 150 K (b) with the calculated result based on Eq. (3). The anomaly is indicated by the arrows.”; Figure 5’s caption should read as “Temperature dependence of the elastic constants $C_{11}$ of $\text{Tb}_2\text{Ti}_2\text{O}_7$ under the selected magnetic fields along the $\langle100\rangle$ axis, offset for clarity in ascending order from bottom to top.”; and Figure 6’s caption should read as “Low-temperature part of the elastic constants $C_{11}$ of $\text{Tb}_2\text{Ti}_2\text{O}_7$ as a function of temperature under selected magnetic fields along the $\langle100\rangle$ axis, offset for clarity in ascending order from bottom to top. The arrows indicate a transition temperature point deduced from the phase diagram reported previously.” The captions have been corrected as of 19 September 2011. The captions are incorrect in the printed version of the journal.
