Erratum: Roughness and critical force for depinning at 3-loop order [Phys. Rev. B 109, 134203 (2024)]

Mikhail N. Semeikin and Kay Jörg Wiese

(Received 10 November 2025; published 1 December 2025)

DOI: 10.1103/gcck-564p

The caption of Table I should read as follows: "Comparison of the various approximations for ζ. The simulation data in dimensions $d = 2$ and $d = 3$ are from A. Rosso, A. K. Hartmann, and W. Krauth, Depinning of elastic manifolds, Phys. Rev. E **67**, 021602 (2003)."

Equations (17) and (19): $\eta(x, t)$ should be dropped.

After Eq. (125): "… obtained for depinning" should read "obtained for depinning of CDWs."

In Eq. (115), $\frac{1}{2}[\vec{\phi}(x)^2]$ should read $\frac{1}{2}[\nabla\vec{\phi}(x)]^2$.

In Eq. (124), $\frac{Z_2}{2}[\vec{\nabla}\phi(x)]^2$ should be $\frac{Z_2}{2}[\nabla\vec{\phi}(x)]^2$.

There are no changes to the results of the paper.
