Erratum: $^{11}\text{B} + \alpha$ reaction rates and primordial nucleosynthesis

T. R. Wang, R. B. Vogelaar, and R. W. Kavanagh

In Table I, the width $\Gamma_{c.m.}$ for resonance No. 4 should read

$$(2.15 \pm 0.38) \times 10^{-3} \text{ instead of } (2.5 \pm 0.5) \times 10^{-3}.$$ 

In Eq. (4), the first exponential term should read

$$\exp \left[ - \frac{28.494}{T_9^{1/3}} \left( \frac{T_9}{0.7207} \right)^2 \right].$$

The correct formula was used in calculations for Figs. 14–17, so they are not affected.

We thank William A. Fowler for pointing out the erroneous exponent.
