Erratum: Isospin dependent global nucleon-nucleus optical model at intermediate energies
[Phys. Rev. C 80, 034608 (2009)]

S. P. Weppner, R. B. Penney, G. W. Diffendale, and G. Vittorini
(Received 4 March 2014; published 17 April 2014)

The above article was published with two typographical errors:

(1) In Eq. (1) for the standard Woods-Saxon form factors, a factor $A^{1/3}$ is missing next to the radius parameter. The complete equation should read

$$ f_{WS}(r, R_i, A_i) = (1 + \exp[(r - R_i A^{1/3})/A_i])^{-1}. $$

(2) In Table I, data row 10 ($V_{SO}$), the entry in the last column (seventh term) should be negative: $-2.40 \times 10^{-6}$.

We note that there is a third typographical error in the print edition of the article. Reference [11] is missing a tilde character (‘˜’) in the URL. The reference is correct in the online edition (and appears below).

We regret these oversights. They do not affect any of the results and conclusions of the original article.
