Erratum

Erratum: Alternative space-time for the point mass
[Phys. Rev. D 20, 2474 (1979)]

L. S. Abrams

1st and 4th lines under Eq. (6): Replace $M_3$ by $\bar{M}_3$.
13th line under Eq. (8): Insert “, when regarded as a mapping from $M$ to $M$,” between “transformation” and “be”.
2nd and 3rd lines under Eq. (11): Replace $A$ by $\bar{A}$, and $B$ by $\bar{B}$.

Also, the proof of the requirement $A(0^+) = 0$ is incorrect; however, the requirement is still valid.¹
