USE ELECTRONIC MODES TO SUBMIT AND RESUBMIT TO THE PR/PRL COMPUSCRIPT PROGRAM

Manuscripts intended for the production compuscript-conversion program should be submitted and resubmitted in electronic, not paper, form. **Upload** via the APS Web-submission site at the URL: http://publish.aps.org/ESUB/, send **electronic mail** to pr*X*tex@aps.org (where *X*=a, b, c, d, e, or l for *Physical Review A, B, C, D, E* or *Letters*), or mail a DOS-formatted **diskette**. All of the textual material of the paper (including tables, captions, etc.) should be in electronic form, as a single file. For the initial electronic-mail submission, use as the subject "submit" followed by the three-letter abbreviation for the name of the journal (pra, prb, prc, prd, pre, or prl) and the last name of the first author (for example, "submit pra jones" or "submit PRA Jones"); the first part of the message should consist of a filled-out submission form (the blank form is available at the above URL) or a submittal letter, giving the postal address of the corresponding author, the journal section intended, and other information.

Figures for an electronic submission must be received in at least review-quality form before editorial processing can begin. Web upload or electronic-mail transmission (one figure per file) of PostScript-formatted figures will normally meet this need. For color or continuous-tone PostScript figures, hard-copy originals are also required. The originals are needed to ensure that the reproductions created from the electronic figure files are satisfactory. (For email transmission, use a subject line similar to that for the text file with the addition of the figure number, e.g., "submit pra jones fig1".) Alternatively, you could send scanner-reproducible journal-quality "originals" immediately by overnight mail. A third possibility is to send review-quality figures by fax (516-591-4141), while the "originals" are sent by conventional or overnight mail as soon as possible; please mark the fax transmission as being part of an electronic-mail submission. On resubmission, it is only necessary to resend your figures if the originals in our file are no longer valid.

Paper copies of the manuscript text should not be sent as a followup unless the electronic-mail transmission has been unsuccessful.

A **diskette** submission should be accompanied by a single paper copy of the manuscript, and by scanner-reproducible "original" figures.

Include the **copyright transfer form** with the original figures or forward it alone by conventional mail. An electronic version of the form is available at the URL http://publish.aps.org/ or via ftp to aps.org in the /pub/jrnls directory, as the files copy_trnsfr.asc, etc. (but do **not** return it electronically, as we need a handwritten signature).

It is important to confirm the **accuracy of bibliographic information** in references. This has become more important now that the journal is online. Hyperlinks will be programmed to enable readers to "click" on references and jump directly to the material cited. If your reference citations are incorrect or incomplete (e.g., missing author name, or an incorrect volume number or page), the associated hyperlinks may fail, and the usefulness of your paper in the online environment may be diminished.

Resubmission must be in electronic form if the paper is to remain eligible for the production compuscript-conversion program. Also, **macros** and other technical problems with the file which have been pointed out by our compuscript staff must be eliminated by this stage if the paper is to remain eligible. **Resubmission forms** are available at http://publish.aps.org/ESUB. For an email resubmission, include the filled-out form as the first part of the message which contains the modified manuscript; alternatively, provide as the first part of the message a **summary** of changes made and a brief **response** to all recommendations and criticisms, and also state whether or not the figures have been modified, and update any other relevant information. Use as the **subject** of the message "resub" followed by the manuscript code number and the last name of the first author; for example, "resub AB1234 Smith" or "resub ab1234 smith".

For **further information** about procedures for electronic submission, see the General Information for Contributors published in the first issue of each volume of the journal, and material available on APS' ftp and World Wide Web servers. In particular consult the document at the URL ftp://aps.org/pub/jrnls/esub_inform.asc or visit the Web-submission page http://publish.aps.org/ESUB.

CHECK LIST **for electronic submission and resubmission of PR/PRL compuscripts:**

[ ] Submit or resubmit electronically:

* Web upload
* Electronic mail

  submission: SUBJECT: submit pra jones
  resubmission: SUBJECT: resubmit ab1234 jones

* Internet: no hard copy
* DOS-formatted disk: one hard copy

[ ] For electronic mail, send submission form (or cover letter) and compuscript as one file.

[ ] Submit figures as separate PostScript files (one per file), by fax, or by overnight mail (send originals of fax figures by conventional mail as soon as possible). Color figures are accepted.

[ ] Confirm the accuracy of bibliographic information in references.

[ ] Compose compuscript in REVTEX, without custom low-level-formatting macros, or private style files. Keystroke-saving macros (via \def and \newcommand) may be used.

[ ] Addresses:

* Web upload: http://publish.aps.org/ESUB/
* Compuscripts, PostScript files: pratex@aps.org, prbtex@aps.org, ... , prltex@aps.org
* Fax figures: (USA) 516-591-4141
* For other correspondence: pra@aps.org, prb@aps.org, ... , prl@aps.org
* For other information: APS Research Journals home page http://publish.aps.org/
