

ANNOUNCEMENT

Irwin Oppenheim Retires

Irwin Oppenheim of MIT is retiring from the senior Editorship of *Physical Review E*. Irwin has been leading PRE since the journal came into existence in 1993. Under Irwin's editorship PRE has grown substantially, maintaining a high standard while attracting authors and papers from a number of new fields. He also oversaw the successful establishment of the online version of the journal. The breadth of Irwin's knowledge and research interests, not to mention his prodigious energy, has been a great asset to PRE.

ANNOUNCEMENT

Gary Grest Assumes PRE Editorship

It is a pleasure to announce that Gary Grest of Sandia National Laboratories will be taking on the senior Editorship of *Physical Review E*. Gary is a recent Divisional Associate Editor for *Physical Review Letters* and has been a very active author and referee for PRE. This experience plus his broad background in condensed matter, soft matter, computational physics, polymers and complex fluids made him an outstanding candidate. Gary was selected from among a number of very distinguished nominees by a search committee chaired by Herman Cummins of CUNY.
