### General Physics: Statistical and Quantum Mechanics, Quantum Information, etc.

|                                                                                                                        |        |
|------------------------------------------------------------------------------------------------------------------------|--------|
| Dynamics of the Entanglement between Two Oscillators in the Same Environment .....                                     | 220401 |
| Juan Pablo Paz and Augusto J. Roncaglia                                                                                |        |
| Delayed-Choice Test of Quantum Complementarity with Interfering Single Photons .....                                   | 220402 |
| Vincent Jacques, E Wu, Frédéric Grosshans, François Treussart, Philippe Grangier, Alain Aspect, and Jean-François Roch |        |
| Bosonic Amplification of Noise-Induced Suppression of Phase Diffusion .....                                            | 220403 |
| Y. Khodorkovsky, G. Kurizki, and A. Vardi                                                                              |        |
| Spacelike Separation in a Bell Test Assuming Gravitationally Induced Collapses .....                                   | 220404 |
| D. Salart, A. Baas, J.A. van Houwelingen, N. Gisin, and H. Zbinden                                                     |        |
| Exponentially Enhanced Quantum Metrology .....                                                                         | 220501 |
| S.M. Roy and Samuel L. Braunstein                                                                                      |        |
| Cryptography from Noisy Storage .....                                                                                  | 220502 |
| Stephanie Wehner, Christian Schaffner, and Barbara M. Terhal                                                           |        |

### Gravitation and Astrophysics

|                                    |        |
|------------------------------------|--------|
| How Quantum is the Big Bang? ..... | 221301 |
| Martin Bojowald                    |        |

### Elementary Particles and Fields

|                                                                                                              |        |
|--------------------------------------------------------------------------------------------------------------|--------|
| Bañados-Teitelboim-Zanelli-Like String on Codimension-2 Braneworlds in the Thin Brane Limit .....            | 221601 |
| Bertha Cuadros-Melgar, Eleftherios Papantonopoulos, Minas Tsoukalas, and Vassilios Zamarias                  |        |
| Determination of the Strong Phase in $D^0 \rightarrow K^+ \pi^-$ Using Quantum-Correlated Measurements ..... | 221801 |
| J.L. Rosner <i>et al.</i> (CLEO Collaboration)                                                               |        |
| Holographic Dark Matter and Higgs Models .....                                                               | 221802 |
| J. Lorenzo Díaz-Cruz                                                                                         |        |
| Precision Measurement of Neutrino Oscillation Parameters with KamLAND .....                                  | 221803 |
| S. Abe <i>et al.</i> (The KamLAND Collaboration)                                                             |        |
| Combining Infrared and Low-Temperature Asymptotes in Yang-Mills Theories .....                               | 222001 |
| M.N. Chernodub and V.I. Zakharov                                                                             |        |

### Nuclear Physics

|                                                                             |        |
|-----------------------------------------------------------------------------|--------|
| $\Lambda_c$ Enhancement from Strongly Coupled Quark-Gluon Plasma .....      | 222301 |
| Su Houn Lee, Kazuaki Ohnishi, Shigehiro Yasui, In-Kwon Yoo, and Che Ming Ko |        |

### Atomic, Molecular, and Optical Physics

|                                                                                                                  |        |
|------------------------------------------------------------------------------------------------------------------|--------|
| Photoionization Cross Section of $\text{Xe}^+$ Ion in the Pure $5p^5 \ ^2P_{3/2}$ Ground Level .....             | 223001 |
| R. Thissen, J.M. Bizau, C. Blancard, M. Coreno, C. Dehon, P. Franceschi, A. Giuliani, J. Lemaire, and C. Nicolas |        |

(Continued Inside)

By suggesting a few manuscripts each week, we hope to promote reading across fields. Please see our Announcement Phys. Rev. Lett. 98, 010001 (2007).
