

Scattering rates for three-phonon interactions for absorption (left) and emission (right) for the *R* Heusler semiconductor Ba_2AuBi at 300 K. Horizontal axes are phonon frequencies, vertical axis is the scattering rate. [Jiangang He *et al.*, Phys. Rev. Lett. **117**, 046602 (2016)]

Physics
spotlighting exceptional research

The American Physical Society's free online publication, *Physics* (http://physics.aps.org/), provides thought-provoking analysis and spotlights exceptional research.
