

Time evolution of charged ethanol drops suspended in a magnetic field. Left to right: effect of increasing angular momentum imparted by controllable air flow. Top to bottom: effect of increasing electric charge. [L. Liao and R. J. A. Hill, Phys. Rev. Lett. **119**, 114501 (2017)]

Physics
spotlighting exceptional research

The American Physical Society's free online publication, *Physics* (http://physics.aps.org/), provides thought-provoking analysis and spotlights exceptional research.
