

In a class of crystalline materials in the noncentrosymmetric space group, the topological surface state in the whole Brillouin zone is a double helix.
[Tiantian Zhang *et al.*, Phys. Rev. Lett. **120**, 016401 (2018)]

Physics
spotlighting exceptional research

The American Physical Society's free online publication, *Physics* (<http://physics.aps.org/>), provides thought-provoking analysis and spotlights exceptional research.
