Current Rapid Communications

Rapid Communications in Physical Review are short reports of important new work which are of sufficient interest to be given priority handling in the publication process. The following papers have been accepted for publication as Rapid Communications and appear as indicated in the designated Physical Review issues.

Physical Review D, Vol. 52, 15 July 1995, Issue 2

Smooth hybrid inflation ..... G. Lazarides and C. Panagiotakopoulos 559
Remarks on the averaged null energy condition in quantum field theory ..... Ulvi Yurtsever 564
Intercommutation of Z-boson string loops violates baryon number ..... Jacek Dziarmaga 569
Canonical non-Abelian dual transformations in supersymmetric field theories .... Thomas Curtright and Cosmas Zachos 573

Physical Review E, Vol. 52, July 1995, Issue 1

Dynamical properties of a growing surface on a random substrate ..... Dinko Cule 1
Universality in models for disorder-induced phase transitions ..... Eduard Vives, Jürgen Goicoechea, Jordi Ortín, and Antoni Planes 5
Existence of long-range order in the steady state of a two-dimensional, two-temperature XY model ..... Kevin E. Bassler and Zoltán Rácz 9
Slow domain growth in a system with competing interactions ..... Madan Rao and Amitabha Chakrabarti 13
In-plane anchoring energy in ferroelectric liquid crystals: Evidence for its existence and measurement ..... Yu. P. Panarin, S. T. Mac Lughadha, and J. K. Vij 17
Evidence for a discotic smectic-nematic phase induced in Langmuir-Blodgett films ..... Radoslav Ionov and Angelina Angelova 21
Structure of molecular liquids ..... Michael P. Allen, Carl P. Mason, Enrique de Miguel, and Joachim Stelzer 25
Bulk and surface correlations in a microemulsion ..... D. D. Lee, S. H. Chen, C. F. Majkrzak, and S. K. Satija 29
Dynamics of concentration-dependent ionic currents ..... Marc Leonetti 33
Modified Mackey-Glass model of respiration control ..... P. S. Landa and M. G. Rosenblum 36
Nonunique stationary states in driven collisional systems with application to plasmas ..... E. Carlen, R. Esposito, J. L. Lebowitz, R. Marra, and A. Rokhlenko 40
