Current Rapid Communications

Rapid Communications in Physical Review are short reports of important new work which are of sufficient interest to be given priority handling in the publication process. The following papers have been accepted for publication as Rapid Communications and appear as indicated in the designated Physical Review issues.

Physical Review D, Vol. 52, 15 August 1995, Issue 4

CBR anisotropy and the running of the scalar spectral index ..... Arthur Kosowsky and Michael S. Turner 1739
Supersonic string models for Witten vortices ..... Brandon Carter and Patrick Peter 1744
