Current Rapid Communications

Rapid Communications in Physical Review are short reports of important new work which are of sufficient interest to be given priority handling in the publication process. The following papers have been accepted for publication as Rapid Communications and appear as indicated in the designated Physical Review issues.

Physical Review D, Vol. 52, 15 December 1995, Issue 12

Electromagnetic origin of the CMB anisotropy in string cosmology ..... M. Gasperini, M. Giovannini, and G. Veneziano R6651
Exact quantum state for $N = 1$ supergravity ..... András Csordás and Robert Graham R6656
Loop scattering in two-dimensional QCD ..... E. Abdalla and M. C. B. Abdalla R6660
