

Current Rapid Communications

Rapid Communications in Physical Review are short reports of important new work which are of sufficient interest to be given priority handling in the publication process. The following papers have been accepted for publication as Rapid Communications and appear as indicated in the designated Physical Review issues.

Physical Review D, Vol. 56, 1 July 1997, Issue 1

Spin-dependent twist-four matrix elements from g_1 data in the resonance region Xiangdong Ji and W. Melnitchouk R1

New constraints on the Yukawa-type hypothetical interaction from the recent Casimir force measurement
..... M. Bordag, G.T. Gillies, and V.M. Mostepanenko R6
