

Current Rapid Communications

Rapid Communications in Physical Review are short reports of important new work which are of sufficient interest to be given priority handling in the publication process. The following papers have been accepted for publication as Rapid Communications and appear as indicated in the designated Physical Review issues.

Physical Review B, Vol. 57, 15 February 1998, Issue 8

Phase-space filling and stimulated scattering of composite bosons	A. Imamoglu	R4195
Inducement of non-Fermi-liquid behavior with a magnetic field		
..... K. Heuser, E.-W. Scheidt, T. Schreiner, and G.R. Stewart		R4198
Localized and delocalized singlet excitons in ladder-type poly(paraphenylene)		
..... M. Knupfer, J. Fink, E. Zojer, G. Leising, U. Scherf, and K. Müllen		R4202
Evidence for exciton-exciton binding in a molecular aggregate		
..... A. Chakrabarti, A. Schmidt, V. Valencia, B. Fluegel, S. Mazumdar, N. Armstrong, and N. Peyghambarian		R4206
Evidence for charged defects in intrinsic glow-discharge hydrogenated amorphous-silicon-germanium alloys		
..... Chih-Chiang Chen, Fan Zhong, J. David Cohen, Jeffrey C. Yang, and Subhendu Guha		R4210
Origin of the magnetic circular dichroism of absorption of the arsenic antisite in GaAs and $\text{Al}_x\text{Ga}_{1-x}\text{As}$		
..... A. Prasad, P. Stallinga, X. Liu, and E.R. Weber		R4214
Laser emission from a solid conjugated polymer: Gain, tunability, and coherence		
..... G. Wegmann, H. Giessen, A. Greiner, and R.F. Mahrt		R4218
Effect of nonequilibrium LO phonons and hot electrons on far-infrared intraband absorption in n -type GaAs		
..... H.P.M. Pellemans and P.C.M. Planken		R4222
Suppressive influence of steps on a phase transition of the Si(001) surface		
..... Takashi Yokoyama and Kunio Takayanagi		R4226
Possibility of a Mott-Hubbard ground state for the SiC(0001) surface	John E. Northrup and Jörg Neugebauer	R4230
Thermal evolution of step stiffness on the Si(001) surface: Temperature-rescaled Ising-model approach		
..... N. Akutsu and Y. Akutsu		R4233
Multiband theory of quantum-dot quantum wells: Dim excitons, bright excitons, and charge separation in heteronanostructures	W. Jaskólski and Garnett W. Bryant	R4237
Ergodic approach to magnetoresistance of a two-dimensional electron gas in a random magnetic field ..	Miguel Calvo	R4241
Effects of two-dimensional plasmons on the tunneling density of states	D.V. Khveshchenko and Michael Reizer	R4245
Anomalous exponent of the spin-correlation function of a quantum Hall edge	H.C. Lee and S.-R. Eric Yang	R4249
Prediction of a strain-induced conduction-band minimum in embedded quantum dots		
..... A.J. Williamson, Alex Zunger, and A. Canning		R4253
Spin blockade in single and double quantum dots in magnetic fields: A correlation effect		
..... Hiroshi Imamura, Hideo Aoki, and Peter A. Maksym		R4257
Collective exciton magnetic polarons in quantum wells with semimagnetic barriers		
..... Alexey Kavokin, Bernard Gil, and Pierre Bigenwald		R4261
Excited-state spectroscopy of InP quantum dots	D. Bertram, O.I. Mićić, and A.J. Nozik	R4265
Metastable adsorption of benzene on the Si(001) surface	Brian Borovsky, Michael Krueger, and Eric Ganz	R4269
Energetics of quantum antidot states in the quantum Hall regime	I.J. Maasilta and V.J. Goldman	R4273
Mechanism of strain release in carbon nanotubes	Marco Buongiorno Nardelli, B.I. Yakobson, and J. Bernholc	R4277
Application of x-ray direct methods to surface reconstructions: The solution of projected superstructures		
..... X. Torrelles, J. Rius, B. Boscherini, S. Heun, B.H. Mueller, S. Ferrer, J. Alvarez, and C. Miravittles		R4281
Highly ordered nanoscale surface alloy formed through Cr-induced Pt(111) reconstruction		
..... Lanping Zhang, J. van Ek, and Ulrike Diebold		R4285
First-principles diffusion-barrier calculation for atomic oxygen on Pt(111)		
..... Alexander Bogicevic, John Strömquist, and Bengt I. Lundqvist		R4289
Reconstructed pseudomorphic Co films on the Cr(110) surface		
..... S. Fölsch, A. Helms, A. Steidinger, and K.H. Rieder		R4293

Physical Review D, Vol. 57, 1 March, Issue 5

Up-down asymmetry: A diagnostic for neutrino oscillations		
..... John W. Flanagan, John G. Learned, and Sandip Pakvasa		R2649
