

## Current Rapid Communications

---

*Rapid Communications in Physical Review* are short reports of important new work which are of sufficient interest to be given priority handling in the publication process. The following papers have been accepted for publication as *Rapid Communications* and appear as indicated in the designated *Physical Review* issues.

### Physical Review D, Vol. 57, 1 April 1998, Issue 7

|                                                                                                                                                  |                                                            |       |
|--------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------|-------|
| Search for the decays $B_d^0 \rightarrow \mu^+ \mu^-$ and $B_s^0 \rightarrow \mu^+ \mu^-$ in $p\bar{p}$ collisions at $\sqrt{s} = 1.8$ TeV ..... | F. Abe <i>et al.</i> (CDF Collaboration)                   | R3811 |
| $Z\gamma$ production in $p\bar{p}$ collisions at $\sqrt{s} = 1.8$ TeV and limits on anomalous $ZZ\gamma$ and $Z\gamma\gamma$ couplings .....     | B. Abbott <i>et al.</i> (D0 Collaboration)                 | R3817 |
| Multigrid implementation of the Fourier acceleration method for Landau gauge fixing .....                                                        | Attilio Cucchieri and Tereza Mendes                        | R3822 |
| Remarks on muon $g-2$ experiments and possible $CP$ violation in $\pi \rightarrow \mu \rightarrow e$ decay .....                                 | Daniel M. Kaplan                                           | R3827 |
| Heavy hybrid states from NRQCD .....                                                                                                             | T. Manke, I. T. Drummond, R. R. Horgan, and H. P. Shanahan | R3829 |
| Relaxing atomic parity violation constraints on new physics .....                                                                                | V. Barger, Kingman Cheung, D. P. Roy, and D. Zeppenfeld    | R3833 |
| New constraints on $R$ -parity violation from $K$ and $B$ systems .....                                                                          | Gautam Bhattacharyya and Amitava Raychaudhuri              | R3837 |
| Energy and zenith angle distribution of upward going muons and neutrino oscillations .....                                                       | Paolo Lipari and Maurizio Lusignoli                        | R3842 |
