
ANNOUNCEMENT

Republication of Paper Issues 8, 9, and 10 of Volume 81

As noted last week, an electronic processing error resulted in missing characters in the paper issues of 24 August, 31 August, and 7 September 1998; the issues appear correctly in the on-line journal. We have identified the cause of the error and taken steps to prevent its reoccurrence.

Since about 20 articles in each of these issues were adversely affected, we have decided to reprint each issue in its entirety. Correct issues will be forwarded to all subscribers as soon as possible. Upon receipt, flawed issues 8, 9, and 10 of Volume 81 should be discarded and replaced by the correct issues; the correct issues will carry an identification mark on the cover.

We regret the inconvenience for our subscribers, authors, and readers.
