Erratum: Landscape of Supersymmetric Particle Mass Hierarchies 
and their Signature Space at the CERN Large Hadron Collider 

Daniel Feldman, Zuowei Liu, and Pran Nath
(Received 18 January 2008; published 14 February 2008)

In Fig. 1 mSP(5–9) should read as follows: mSP5: $\chi^0_1 < \tau_1 < l_R < \nu_\tau$, mSP6: $\chi^0_1 < \tau_1 < \chi^+_1 < \chi^0_2$, mSP7: $\chi^0_1 < \tau_1 < l_R < \chi^+_1$, mSP8: $\chi^0_1 < \tau_1 < A < H$, mSP9: $\chi^0_1 < \tau_1 < l_R < A/H$. For other mSP, $\chi^0_i \rightarrow \chi^0_i$, $i = 2, 3$. In the caption of Table I, the on-shell b quark mass should read 4.23 GeV (the unit is missing). These corrections have been included in the archive manuscript.
