In page 2 of the Letter, a factor of 4 was left out of the definition of the term $J_{\nu,\rho}(x)$, located just below Eq. (3) in the article. The correct definition for the term should read

$$J_{\nu,\rho}(x) = (4x)^\nu [J_\nu(x) \mp iJ_\nu(x)].$$

The error is typographical in nature; the correct forms of the eigenfunctions were used in the simulations, and as such the numerical results of the Letter, as well as the conclusions, remain the same.
