
ERRATA

APPLICATION OF THE DIRECT-SEMIDIRECT MODEL TO THE INTERPRETATION OF $E1$ AND $E2$ STRENGTH IN $^{14}\text{C}(p_{\text{pol}}, \gamma)^{15}\text{N}$. K. A. Snover, J. E. Bussoletti, K. Ebisawa, T. A. Trainor, and A. B. McDonald [Phys. Rev. Lett. **37**, 273 (1976)].

The zero (baseline) for the b_3 coefficient in Fig. 1 is improperly drawn. b_3 values read from Fig. 1 should be corrected by adding 0.04 [$b_3(\text{correct}) = b_3(\text{Fig. 1}) + 0.04$].

MEASUREMENT OF MEDIUM-ENERGY ALPHA-PROTON ELASTIC SCATTERING BEYOND THE FIRST MINIMUM REGION. J. Berger, J. Duflo, L. Goldzahl, F. Plouin, J. Oostens, M. Van Den Bossche, L. Vu Hai, G. Bizard, C. Le Brun, F. L. Fabbri, P. Picozza, and L. Satta [Phys. Rev. Lett. **37**, 1195 (1976)].

In Fig. 1, the dotted curves representing the theoretical calculations failed to reproduce. A new version of the figure is given herewith.
