ERRATUM

Figure 1(a) has an error with regard to one of the arrows. A corrected version is given here.

![Diagram](image)

FIG. 1. (a) Polariton dispersion in CdS for propagation direction perpendicular to the c axis. The four arrows indicate the four possible backscattering processes of the two polariton branches 1 and 2 as proposed by Brenig, Zeyher, and Birman (Ref. 10). (b) A schematic representation of the experimental scattering geometry.
