Evidence for Endohedral Muonium in $K_xC_{60}$ and Consequences for Electronic Structure

As printed the address of E. J. Ansaldo is not complete. It should read as follows:

TRIUMF and Department of Physics, University of Saskatchewan, Saskatoon, Canada S7N 0W0

Observation of Mössbauer Resonance Line Splitting Caused by Rabi Oscillations
[Phys. Rev. Lett. 69, 2815 (1992)]

I. Tittonen, M. Lippmaa, E. Ikonen, J. Linden, and T. Katila

After the publication of our Letter we became aware of the work by F. G. Vagizov published in Hyperfine Interact. 61, 1359 (1990). We acknowledge the importance of this work and think that it should have been cited.
